

SMART PARTS

Washable, Reusable Cabin Air Filters

INSTALLATION INSTRUCTIONS PART NO. SP11754

The cabin air filter is located in front of windshield, under cowl vent screen on passenger side
Installation time: 10 min

- Open hood (FIG 1)
- Remove rubber cushion by pulling up and back towards middle of windshield (FIG 2)
- Gently pry the cowl upwards with a flathead screwdriver or similar, revealing the filter housing and element (FIG 3, 4)
- Unsnap two tabs which secure the filter into the housing (FIG 5)
- Remove old filter (FIG 6)
- Install new Smart Parts Washable Reusable Cabin Air Filter (squeeze to fit if needed)
- Reverse above steps to reassemble
